

FCC Releases Proposed Rulemaking on Space Innovation

January 30, 2024

Reading Time : **1 min**

By: Steven A. Rowings, Michael C. Mineiro, Sharanya Sriram

- The FCC released its draft version of a **NPRM** concerning a licensing framework for ISAM capabilities. The item is tentatively scheduled to be voted on at the FCC's Open Commission meeting on February 15.
- The NPRM proposes changes to the Commission's rules, which include defining what constitutes an ISAM space station, creating a framework for ISAM space station operators to pursue FCC licensing under Part 25 of the Commission's rules, and clarifying how the FCC's space station license requirements, including orbital debris mitigation, could apply to ISAM operators.
